

RUDDER ANGLE INDICATOR RI96

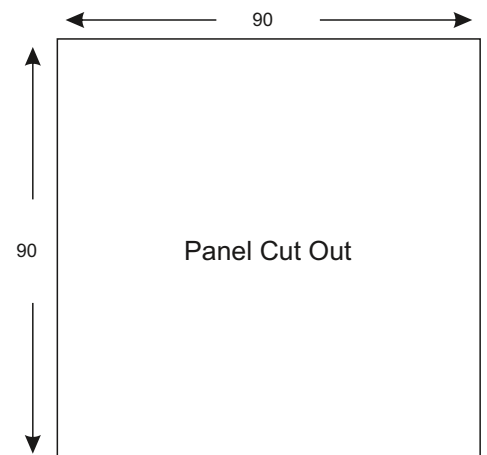

BENEFITS

- Meets DIN Standards and sizes
- Shock resistant Pivot and jewel movement
- Can be installed to ECR and E/R
- Ideal for retrofit applications
- LED Scale illumination
- Designed to comply with industrial and marine specs
- +/- 10V Input fits most existing systems
- High accuracy 1%
- Easy Installation and replacement

TECHNICAL DETAILS

Instrument Voltage	:	+/- 10V DC
Scale	:	45° - 0 - 45°
Moving Angle	:	240°
Illumination Supply	:	24V DC
Illumination Current	:	20mA
Outline Sizes	:	96x96x51 mm
IP Protection Class	:	50
Weight	:	100,0 g

Dimensions in mm
